

Cnc Precision Machining Parts Industrial Plastic Gear Supplier

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000pcs
- Price: Negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: Plastics
- Tolerance: $\pm 0.05\text{mm}$
- Process: Turning And Milling
- Certificate: ISO9001:2015
- OEM: Available
- Highlight: **cnc precision machining parts,
cnc machining parts supplier,
Industrial Plastic Gear**

Product Description

Custom Made Industrial Plastic Gear

Name	Custom Made Industrial Plastic Gear
Material	Plastic
Surface treatment	Non
Tolerance	+/-0.05mm
Process	Turning and milling, CNC Machining, and grinding
Certificate	ISO9001:2015
OEM	Available

Description:

Machined metal parts are componnets produced by removing material form a full block of raw material using cutting tool on machines such as CNC turning center or CNC milling centers.

Removing material from a block of raw material is called CNC machining. Achieving this can be accomplished through a range of diverse tools and methodologies, including turning, milling, drilling, threading, and many others.

Material for machining:

Metal:Stainless steel, carbon steel Q235, aluminium 6061, brass, and etc.

Plastic: ABS,PC, POM and HDPE.

Advantage:

- 1.Machining helps ensure mass produced parts conform more closely to their desired specifications.
- 2.This process sometimes helps manufacturer achieve desired finishing surface properties which impact the marketability of the part.
- 3.Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

Industry, medical and consumer products.

Company Profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
