Custom Cnc Machining Parts Manufacturer Black Anodization Aluminium Pulley For Laboratory Use

Basic Information

Place of Origin: China

Certification: ISO9001:2015
Minimum Order Quantity: 5000pcs
Price: negotiable

Packaging Details: Carton and wooden case

Delivery Time: 30-35 Days
Payment Terms: T/T, Paypal
Supply Ability: 100000pcs

Product Specification

Material: 6061 AluminiumSurface: Black Anodization

Tolerance: +/-0.05mm
Weight: 100g/pc
Process: Machining
Color: Black

Certification: ISO9001:2015 OEM: Available

• Highlight: custom part machining,

cnc machining parts manufacturer, Anodization Aluminium Pulley

Product Description

Black Anodization Aluminium Pulley For Laboratory Use

Name	Black Anodization Aluminium Pulley For Laboratory
	Use
Material	6061 alumimium
Surface treatment	Black anodization
Tolerance	+/-0.05mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Black

Machined metal parts are componnets produced by removing material form a full block of raw material using cutting tool on machines such as CNC turning center or CNC milling centers.

Removing material from a block of raw material is called CNC machining. Achieving this can be accomplished through a range of diverse tools and methodologies, including turning, milling, drilling, threading, and many others.

Advantage:

- 1.Machining helps ensure mass produced parts conform more closely to their desired specifications.
- 2. This process sometimes helps manufacturer achieve desired finishing surface properties which impact the marketability of the part.
- 3.Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc. $\label{eq:continuous}$

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
