

## High Precision Aluminium Pressure Die Casting Parts Manufacturers Industrial

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 5000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

#### Product Specification

- Material: ADC12 Aluminium
- Surface Treatment: Non
- Tolerance: +/-0.05MM
- Weight: 200g/pc
- OEM: Available
- Color: Natural
- Highlight: **precision die casting,  
aluminium pressure die casting,  
die casting parts manufacturers**

## Product Description

### High Precision Industrial Aluminium Pressure Die Casting Parts

Name	High Precision Industrial Aluminium Pressure Die Casting Parts
Die Casting Mould	Profound Experience
Material	ADC12 Aluminium
Surface Treatment	Non
Tolerance	+/-0.05MM
Weight	200g/pc
Certificate	ISO9001:2015
OEM	Available

#### Description:

Aluminum alloys are the most widely used for die cast parts. Aluminum die casting suppliers benefit from the total recyclability of the material and its ease of use. Due to the comparatively higher melting point, aluminum die casting may require a cold chamber casting process. Engineers use cast aluminum parts primarily for their great strength to weight ratios, dimensional stability, and diverse finishing options. Some of the other common characteristics of cast aluminum alloys are

1. Withstand high operating temperatures
2. Corrosion Resistance
3. Good Stiffness
4. High thermal and electrical conductivity.

#### Application:

Aluminum Casting Parts are widely used for various purposes, such as automotive parts, engine parts, marine parts, electronic parts, electrical parts, agricultural parts, infrastructure parts, architectural parts, food and beverage parts, medical parts, and many others.
