

Large Medical Machining Part Central Machinery Turning Parts For Electrical Machine Fitting

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 2000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

Product Specification

- Material: Steel
- Surface: Non
- Tolerance: +/-0.05mm
- Weight: 500g/pc
- Process: Machining
- Color: Natural
- Certification: ISO9001:2015
- OEM: Available
- Highlight: machining large parts, machining medical part, machining of part

Product Description

Central Machinery Turning Parts For Electrical Machine Fitting

Name	Central Machinery Turning Parts For Electrical Machine Fitting
Material	Steel
Surface treatment	Non
Tolerance	+/-0.05mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

Machined metal parts are componnets produced by removing material form a full block of raw material using cutting tool on machines such as CNC turning center or CNC milling centers.

Removing material from a block of raw material is called CNC machining. Achieving this can be accomplished through a range of diverse tools and methodologies, including turning, milling, drilling, threading, and many others.

Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.

The total cost of machined prototypes is low.

2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.

3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
