

automotive aluminum sheet metal parts components ISO9001 Certified

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000
- Packaging Details: Carton or wooden case
- Delivery Time: 35 days
- Payment Terms: T/T, Paypal
- Supply Ability: 1000000

Product Specification

- Material: Steel
- Finish: Paint
- Tolerance: +/-0.05mm
- OEM: Available
- Color: Blue
- Highlight: **aluminum sheet metal parts,
sheet metal parts components,
automotive sheet metal parts**

for more products please visit us on caindustrialparts.com

Product Description

ISO9001 Certified Custom Sheet Metal Fabrication Service:

Name	ISO9001 Certified Custom Sheet Metal Fabrication Service
Material	Carbon steel
Surface treatment	Paint
Tolerance	+/-0.1mm
Weight	0.02kg
Process	Stamping
Certificate	ISO9001:2015
OEM	Available

Description:

Sheet Metal Fabrication is the process of forming parts from a metal sheet by punching, cutting, stamping, and bending. 3D CAD files are converted into machine code, which controls a machine to precisely cut and form the sheets into the final part. Sheet metal parts are known for their durability, which makes them great for end use applications (e.g. chassis). Parts used for low volume prototypes, and high volume production runs are most cost-effective due to large initial setup and material costs.

Advantage:

1. Sheet metal material are also capable of holding high-pressure levels, with the added ability to resist corrosion and degradation resulting from exposure to sun, water, moisture, and corrosion in all types of environments.
2. Sheet metal components exhibit a relatively low weight when compared to alternative materials such as solid metal blocks or castings.
3. Sheet metal fabrication allows for great design flexibility, sheet metal can be easily cut, bent, and shaped into complex forms, offering designers the freedom to create parts with intricate geometries, creating customized and aesthetically pleasing components.

Application:

Dental, Medical, Electronics, Lighting, Consumer products. Aircraft, Automotive and Construction.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
