

Thin Truck Hydraulic Filter Mounting Base Sheet Metal Parts Supplier

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000
- Packaging Details: Carton or wooden case
- Delivery Time: 35 days
- Payment Terms: T/T, Paypal
- Supply Ability: 1000000

Product Specification

- Material: Steel
- Finish: Non
- Tolerance: +/- 1mm
- OEM: Available
- Color: Natural
- Highlight: **thin sheet metal parts ,
sheet metal parts supplier ,
truck sheet metal parts**

Product Description

Hydraulic Filter Mounting Base Sheet Metal Parts:

Name	Hydraulic Filter Mounting Base Sheet Metal Parts
Material	Steel
Surface treatment	Non
Tolerance	+/- 1 mm
Weight	500g
Process	Sheet Metal
Certificate	ISO9001:2015
OEM	Available

Description:

Sheet metal fabrication is a manufacturing process that converts sheets of metal into custom functional parts.

The process typically involves removing material from the sheet to form the basic shape and then may involve secondary steps, such as bending, to create more complex 3D shapes such as pans, boxes, and brackets.

Advantage:

1. Sheet metal material are also capable of holding high-pressure levels, with the added ability to resist corrosion and degradation resulting from exposure to sun, water, moisture, and corrosion in all types of environments.
2. Sheet metal components exhibit a relatively low weight when compared to alternative materials such as solid metal blocks or castings.
3. Sheet metal parts, especially these made from materials like steel or aluminium, are highly recyclable. These parts can be recycled and reused to produce new sheet metal components, reducing environmental impact and promoting sustainability.

Application:

Custom sheet metal manufacturing is used in a variety of applications such as aerospace, automotive, medical, consumer products, scientific instruments, and electronic devices. Sheet metal manufacturing can be customized to create a wide range of parts, including brackets, covers, frames, enclosures, and housings.

Company profile:

C&A Industrial Component Ltd. is a China-based manufacturer of custom-made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping, and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American

Customers.
