

## Aluminum Sheet Metal Components Stamping Precision Zinc Plated Sheet Metal Fabrication

Our Product Introduction

for more products please visit us on [caindustrialparts.com](http://caindustrialparts.com)

### Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000
- Packaging Details: Carton or wooden case
- Delivery Time: 35 days
- Payment Terms: T/T, Paypal
- Supply Ability: 1000000

### Product Specification

- Material: Carbon Steel
- Finish: Zinc Plated
- Tolerance: +/-1.00mm
- OEM: Available
- Color: Colorful
- Highlight: **aluminum sheet metal components,  
aluminum sheet metal stamping,  
auto sheet metal fabrication**

## Product Description

### Custom Precision Zinc Plated Sheet Metal Fabrication:

Name	Custom Precision Zinc Plated Sheet Metal Fabrication
Material	Steel
Surface treatment	Zinc Plated
Tolerance	+/-1.00mm
Weight	300g
Process	Sheet Metal
Certificate	ISO9001:2015
OEM	Available

### Description:

Sheet metal fabrication is a manufacturing process that converts sheets of metal into custom functional parts.

The process typically involves removing material from the sheet to form the basic shape and then may involve secondary steps, such as bending, to create more complex 3D shapes such as pans, boxes, and brackets.

### Advantage:

1. Sheet metal material are also capable of holding high-pressure levels, with the added ability to resist corrosion and degradation resulting from exposure to sun, water, moisture, and corrosion in all types of environments.
2. Sheet metal components exhibit a relatively low weight when compared to alternative materials such as solid metal blocks or castings.
3. Consider using a less expensive material, different sheet metal materials have different price points, and switching to a less expensive material could help reduce the overall cost of your parts.

### Application:

Custom sheet metal manufacturing is used in a variety of application such as aerospace, automotive, medical, consumer products, scientific instruments, and electronic devices. Sheet metal manufacturing can be customized to create a wide range of parts, including brackets, covers, frames, enclosures, and housings.

### Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
