

5-Axis Aluminium Machining Part Milling Center Electric Parts Manufacturer Aluminum Case Parts

Our Product Introduction

for more products please visit us on caindustrialparts.com

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

Product Specification

- Material: 6061 Aluminium
- Surface: Anodization
- Tolerance: +/-0.05mm
- Weight: 150g/pc
- Process: Machining
- Color: Black
- Certification: ISO9001:2015
- OEM: Available
- Highlight: 5-axis machining parts,
aluminum machining part,
aluminium machining part

Product Description

Milling Center Electric Parts Manufacturer Aluminium Case Parts

Name	Milling Center Electric Parts Manufacturer Aluminium Case Parts
Material	Aluminium 6061
Surface treatment	Anodization
Tolerance	+/-0.05mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

Description:

Our machining capabilities include Swiss-style automatic machining with 15000RPM Spindles that achieves tolerance as tight as +/-0.025mm, versatile multi-tool 4-axis CNC Milling and turning centers.

Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.
The total cost of machined prototypes is low.
2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.
3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods
4. Machined parts offer a high degree of design freedom, There are part configurations that simply can't be achieved through casting, injection molding, and other techniques, while there are some limitations, the use of CNC machining can produce parts to a wide range of specifications.

Application:

Part machining provides useful components to just about every industry out there. The high precision of CNC production machining makes CNC machining cost-effective without compromising quality for a wide variety of applications, including Aerospace, Automotive, Medical devices, and Oil and gas.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
