

## High Precision Copper Aluminium Stamping Parts Custom Made Metal Fabrication

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-40 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

#### Product Specification

- Material: Steel
- Surface Treatment: Non
- Tolerance: +/-0.1mm
- Weight: 20g
- Process: Stamping
- Certificate: ISO9001:2015
- OEM: Available
- Highlight: **copper stamping parts,  
aluminum stamping parts,  
aluminium stamping parts**

## Product Description

### High Precision Custom Made Metal Stamping Fabrication Parts

|                   |   |
|-------------------|---|
| Name              | High Precision Custom Made Metal Stamping Fabrication Parts |
| Material          | Steel   |
| Surface treatment | Non   |
| Tolerance         | +/-0.1mm  |
| Weight            | 20g   |
| Process           | Stamping  |
| Certificate       | ISO9001:2015  |
| OEM               | Available   |

#### Description:

The process of turning sheets of metal into a useful parts of component is called sheet metal stamping. The metal is fed into a press, where the stamping tools, also known as a die, creates the desired shape. the die is pressed into or through the metal with tremendous force, The force used in the process is measured in tons. Except for some specialized processes, sheet metal stamping doesn't use heat. Instead, it is done with a cold-forming technique. Even though no heat is used, the part can come out hot because of the friction that is created between the metal and the die from the force of the press.

#### Advantage:

Stamping is suitable for mass, complex parts production. More specifically, it offers:  
 Complex forms, such contours  
 High volumes(from thousands to millions of parts per year)  
 Processes such as fineblacking allow for forming of thick metal sheets.  
 Low cost-per-piece price.

#### Application:

Automotive Stampings  
 Building Products  
 Solar BOS (balance of system) Components  
 LED Lighting  
 Electric vehicle EV Components  
 Roofing Products

#### Company Profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.  
 We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.  
Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
