

Automotive Metal Stamping Parts Tools Stainless Steel Stamping Parts

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-40 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: Stainless Steel 304
- Surface Treatment: Non
- Tolerance: +/-0.1mm
- Weight: 20g
- Process: Stamping
- Certificate: ISO9001:2015
- OEM: Available
- Highlight: **auto stamping parts,
automotive metal stamping parts manufacturers
, automotive metal stamping parts**

Product Description

Custom Metal Fabrication Tools Stainless Steel Stamping Parts:

| | |
|-------------------|---|
| Name | Custom Metal Fabrication Tools Stainless Steel Stamping Parts |
| Material | Stainless Steel 304 |
| Surface treatment | Non |
| Tolerance | +/-0.1mm |
| Weight | 100g |
| Process | Stamping |
| Certificate | ISO9001:2015 |
| OEM | Available |

Description:

Metal stamping is a manufacturing process used to convert flat metal sheets into specific shapes. It is a complex process that can include a number of metal forming techniques-blanking, punching, bending and piercing etc

Except for some specialized processes, sheet metal stamping doesn't use heat. Instead, it is done with a cold-forming technique.

Even though no heat is used, the part can come out hot because of the friction that is created between the metal and the die from the force of the press.

Metal stamping materials:

Steel: CRS steel like 1018

Stainless steel:301,304, and 316/316L

Advantage:

Stamping is suitable for mass, complex parts production. More specifically, it offers:

Complex forms, such contours

High volumes(from thousands to millions of parts per year)

Processes such as fineblacking allow for forming of thick metal sheets.

Low cost-per-piece price.

Application:

Automotive Stampings

Building Products

Solar BOS (balance of system) Components

LED Lighting

Electric vehicle EV Components

Roofing Products

Company Profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949,and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
