Custom Metal Stamping Parts Service Polishing Finish Parts Bending

Basic Information

Place of Origin: China

Certification: ISO9001:2015
Minimum Order Quantity: 3000pcs
Price: negotiable

Packaging Details: Carton and wooden case

Delivery Time: 35-40 Days
Payment Terms: T/T, Paypal
Supply Ability: 100000pcs

Product Specification

Material: Stainless Steel 304

Surface Treatment: Non
Tolerance: +/-0.1mm
Weight: 50g
Process: Stamping
Certificate: ISO9001:2015
OEM: Available

• Highlight: custom stamping parts,

custom metal stamping parts, automobile stamping parts

Product Description

Custom Metal Fabrication Tools Stainless Steel Stamping Parts:

Name	Custom Service Polishing Finish Parts Bending Stamping Parts
Material	Stainless Steel 304
Surface treatment	Non
Tolerance	+/-0.1mm
Weight	50g
Process	Stamping
Certificate	ISO9001:2015
OEM	Available

Description:

Metal stamping is a manufacturing process used to convert flat metal sheets into specific shapes. It is a complex process that can include a number of metal forming techniques-blanking, punching, bending and piercing etc

Though virtually any metal, including gold can be stamped, sheet metal is by far the most common.

The type of metal used depends on the type of parts that's needed and its desired properties, such as corrosion-and heat-resistance.

Sheet metal stamping can produce parts from the following materials:

Stainless Steel, Low and high carbon steel, Aluminum, Brass and etc.

Advantage:

Stamping is suitable for mass, complex parts production. More specifically, it offers:

Complex forms, such contours

High volumes(from thousands to millions of parts per year)

Processes such as fineblacking allow for forming of thick metal sheets.

Low cost-per-piece price.

Application:

Automotive Stampings
Building Products
Solar BOS (balance of system) Components
LED Lighting
Electric vehicle EV Components
Roofing Products

Company Profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
