

Precision Metal Stamping Replacement Parts Tools Design Custom Stamping Components

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 3000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-40 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: Aluminium
- Surface Treatment: Anodized
- Tolerance: +/-0.1mm
- Weight: 50g
- Process: Stamping
- Certificate: ISO9001:2015
- OEM: Available
- Highlight: **parts of a stamping tool,
precision stamping parts,
metal stamping replacement parts**

Product Description

Tools Design Fabrication Custom Stamping Components:

Name	Tools Design Fabrication Custom Stamping Components
Material	Aluminium
Surface treatment	Non
Tolerance	+/-0.1mm
Weight	120g
Process	Stamping
Certificate	ISO9001:2015
OEM	Available

Description:

Metal stamping is a broad category of manufacturing services used to turn strips or sheets of metal into functional components . Metal stamping is a manufacturing process used to convert flat metal sheets into specific shapes. It is a complex process that can include a number of metal forming techniques-blanking, punching, bending and piercing etc Though virtually any metal, including gold can be stamped, sheet metal is by far the most common. The type of metal used depends on the type of parts that's needed and its desired properties, such as corrosion-and heat-resistance. some examples of prcision stamping fabrication processes include bending, blanking, coining, embossing, flanging, High-speed, progressive-die, punching, and single-stage stamping.

Advantage:

Metal stampings are used in a wide variety of applications across nearly every industry, including automotive, manufacturing, construction, aerospace, electronics, medical, and more.

Application:

Automotive Stampings
Building Products
Solar BOS (balance of system) Components
LED Lighting
Electric vehicle EV Components
Roofing Products

Company Profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
