

Machine Casting Parts Manufacturer Metal Parts For Construction Machinery Parts

Our Product Introduction

for more products please visit us on caindustrialparts.com

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: Negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: Aluminium
- Surface Treatment: Non
- Tolerance: +/-0.8MM
- Weight: 500g/pc
- OEM: Available
- Color: Natural
- Highlight: **casting parts manufacturer,
die cast aluminum parts, die cast machine parts**

Product Description

Customized Service Aluminum Die Casting Metal Parts For Construction Machinery Parts

Name	Customized Service Aluminum Die Casting Metal Parts For Construction Machinery Parts
Die Casting Mould	Profound Experience
Material	Aluminium
Surface Treatment	Non
Tolerance	+/-0.8MM
Weight	450g/pc
Certificate	ISO9001:2015
OEM	Available

Description:

Die casting is a metal casting method that involves pouring molten metal into a mold cavity so that it solidifies to take up the shape of the mold. This technique of metal forming allows versatility in part size and shape, even for complex shapes with internal cavities or hollow sections.

Advantage:

1. Aluminium being a lightweight alloy allows making lightweight parts without compromising their strength.
2. it has the versatility to produce thin-walled simple or complex-shape parts with good precision
3. Aluminium cast parts are well textured or smooth depending on the requirements
4. Since the process is very fast, it allows producing tens of thousands of parts in less time and cost.

Application:

Automotive, Aerospace, Energy, Electronics, Construction, Engineering, and Medical.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc. We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
