

Zinc Plated Custom Sheet Metal Fabrication Part Brass Sheet Metal Components Manufacturers

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Packaging Details: Carton or wooden case
- Delivery Time: 35 days
- Payment Terms: T/T, Paypal
- Supply Ability: 1000000

Product Specification

- Material: Carbon Steel
- Finish: Assembly
- Tolerance: +/-1.00mm
- OEM: Available
- Color: Natural
- Highlight: custom metal parts fabrication,
brass sheet metal components manufacturers,
brass sheet metal components

for more products please visit us on caindustrialparts.com

Product Description

Zinc Plated Custom Sheet Metal Fabrication Part:

Name	Zinc Plated Custom Sheet Metal Fabrication Part
Material	Carbon Steel
Surface treatment	Non
Tolerance	+/-1.00mm
Weight	300g
Process	Sheet Metal
Certificate	ISO9001:2015
OEM	Available

Description:

Sheet metal fabrication is a manufacturing process that converts sheets of metal into custom functional parts.

The process typically involves removing material from the sheet to form the basic shape and then may involve secondary steps, such as bending, to create more complex 3D shapes such as pans, boxes, and brackets.

Advantage:

1. Sheet metal material are also capable of holding high-pressure levels, with the added ability to resist corrosion and degradation resulting from exposure to sun, water, moisture, and corrosion in all types of environments.
2. Sheet metal components exhibit a relatively low weight when compared to alternative materials such as solid metal blocks or castings.
3. Consider using a less expensive material, different sheet metal materials have different price points, and switching to a less expensive material could help reduce the overall cost of your parts.

Application:

A wide range of Sheet metal components used in automotive and electronics, rural equipment, custom manufacturing and fabricating, electrical and power generations for their engines, Transmissions, Axles, and bodies.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
