Long Ss Machining Part Metal Axis Cnc Machining Manufacturing OEM ODM Service

Basic Information

Place of Origin: China

Certification: ISO9001:2015
Minimum Order Quantity: 1000pcs
Price: negotiable

Packaging Details: Carton and wooden case

Delivery Time: 30-35 Days
Payment Terms: T/T, Paypal
Supply Ability: 10000pcs

Product Specification

Material: Carbon Steel

Surface: Nor

Tolerance: +/-0.09mm
Weight: 200g/pc
Process: Machining
Color: Natural
Certification: ISO9001:2015
OEM: Available

• Highlight: ss machining part, machining long parts,

machining part

Product Description

Custom Metal Axis Cnc Machining Manufacturing OEM ODM Service:

Name	Custom Metal Axis Cnc Machining Manufacturing OEM ODM Service
Material	Carbon Steel
Surface treatment	Non
Tolerance	+/-0.09mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

Description:

Machining generally describes a manufacturing process in which a worker uses sharp cutting tools to remove excess material from a parts in

order to create a desirable new shape.

Casting, forgings, extrusions, bar stock and even raw materials can all provide substrates for the process of machining.

Advantage:

1.In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.

The total cost of machined prototypes is low.

- 2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.
- 3.Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
