

Design Assistance On Time Delivery Lathe Aircraft Custom CNC Machining Parts OEM

Our Product Introduction

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

Product Specification

- Material: Carbon Steel
- Surface: Non
- Tolerance: +/-0.06mm
- Weight: 150g/pc
- Process: Machining
- Color: Natural
- Certification: ISO9001:2015
- OEM: Available
- Highlight: lathe machining part, machining cnc part, machining aircraft parts

for more products please visit us on caindustrialparts.com

Product Description

Design Assistance On Time delivery Custom CNC Machining OEM Parts:

Name	Design Assistance On Time delivery Custom CNC Machining OEM Parts
Material	Carbon Steel
Surface treatment	Non
Tolerance	+/-0.06mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

Description:

Machining generally describes a manufacturing process in which a worker uses sharp cutting tools to remove excess material from a parts in order to create a desirable new shape.

Typically, machining constitutes a secondary operation. It usually involves cutting away and discarding a portion of the material.

The process of machining rarely proves economical when it involves removing more than 40% of the weight of the part. in that case, the manufacturer should rely upon other manufacturing techniques, such as forging or casting.

Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.

The total cost of machined prototypes is low.

2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.

3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
