

## **machining tool part Aluminum 5052 Components aluminum machine screws brake lathe parts**

### **Our Product Introduction**

#### **Basic Information**

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

#### **Product Specification**

- Material: Aluminium 5052
- Surface: Non
- Tolerance: +/-0.05mm
- Weight: 50g/pc
- Process: Machining
- Color: Natural
- Certification: ISO9001:2015
- OEM: Available
- Highlight: **machining tool part, aluminum machine screws,  
brake lathe parts**

## Product Description

### Aluminum 5052 Machining Components Screw:

Name	Aluminum 5052 Machining Components Screw
Material	Aluminium 5052
Surface treatment	Non
Tolerance	+/-0.05mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

### Description:

Machined parts are everywhere, From thin metal fasteners to aircraft engine components, all sorts of parts have been built using the process of machining. Nowadays most complex or custom machined parts are made with CNC machines, but machinists still do manual machining for certain jobs. since it can be faster than creating a digital design and programming the digital machinery.

### Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed. The total cost of machined prototypes is low.
2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.
3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

### Application:

Aerospace, medical, Automotive, and consumer products.

### Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
