Customized Metal Shaped Cnc Milling Machine Parts Cnc Machined Products

Basic Information

Place of Origin: China

Certification: ISO9001:2015
 Minimum Order Quantity: 1000pcs
 Price: negotiable

Packaging Details: Carton and wooden case

Delivery Time: 30-35 Days
Payment Terms: T/T, Paypal
Supply Ability: 10000pcs

Product Specification

Material: Carbon Steel

• Surface: Non

Tolerance: +/-0.05mm
Weight: 200g/pc
Process: Machining
Color: Natural
Certification: ISO9001:2015
OEM: Available

• Highlight: cnc milling parts, cnc milling machine parts,

cnc machined products

Product Description

Customized Metal Shaped CNC Machining Parts

Name	Customized Metal Shaped CNC Machining Parts
Material	Carbon Steel
Surface treatment	Non
Tolerance	+/-0.08mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Natural

Description:

Machining parts can be metal or plastic, but they must be made from a mterial that can be cut without drastically deforming. Sometimes parts are machined after being built with another manufacturing process, For instance, cast or molded items may have certain details or features machined into them at a later stage. these may be described as partially machined parts or post=machined parts.

Advantage:

1.In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds

The total cost of machined prototypes is low.

2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.

3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
