

## Quality High Pressure Aluminum Die Casting Automobile & Auto Engine Motorcycle Parts

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 550pcs
- Price: Negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

#### Product Specification

- Material: Aluminium 380
- Surface Treatment: Non
- Tolerance: +/-0.5MM
- Weight: 300g/pc
- OEM: Available
- Color: Natural
- Highlight: **high pressure aluminum die casting,  
high pressure die casting, quality die casting**

## Product Description

### Aluminium Alloy Casting Automobile & Auto Engine Motorcycle Parts:

Name	Aluminium Alloy Casting Automobile & Auto Engine Motorcycle Parts
Die Casting Mould	Profound Experience
Material	Aluminium380
Surface Treatment	Non
Tolerance	+/-0.8MM
Weight	300g/pc
Certificate	ISO9001:2015
OEM	Available

#### Description:

Die casting is a metal casting process that is characterized by forcing molten metal under high pressure into a mold cavity. The mold cavity is created using two hardened tool steel dies which have been machined into shape and work similarly to an injection mold.

during the process,. most id ecasting are made from non-ferrous metals, specifically zinc, aluminum, and etc.

#### Advantage:

1. Aluminium being a lightweight alloy allows making lightweight parts without compromising their strength.
- 2.it has the versatility to produce thin-walled simple or complex-shape parts with good precision
3. Aluminium cast parts are well textured or smooth depending on the requirements
- 4.Since the process is very fast, it allows producing tens of thousands of parts in less time and cost.

#### Application:

Automotive, Aerospace, Energy, Electronics,Construction, Engineering, and Medical.

#### Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc. We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949,and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
