Assembling Steel Block Machining Parts And Components

heren Ta a Tell III

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 500pcs
- Price:
- Packaging Details:
- Delivery Time:
- 30-35 Days • Payment Terms: T/T,Paypal
- Supply Ability:

Product Specification

- Material:
- Surface:
- Tolerance:
- Weight:
- Process:
- Color:
- Certification:
- OEM:

- Q235 And Stainless Steel 304 Black Oxide
- +/-0.05mm
- 100g/pc
- Machining
- Black
- ISO9001:2015
- Available

Product Description

Assembling Steel Block Machining Parts And Components:

Name	Assembling Steel Block Machining Parts And
	Components
Material	Q235 and Stainless steel 304
Surface treatment	Black Oxide
Tolerance	+/-0.08mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Black

Description:

This parts are assembling steel block parts, which is made up of small parts.

Machined parts have excellent strength, as they are built from solid blocks of material, and they can be made into a wide range of shapes.

parts can be made quickly. since they do not require tooling, and tolerance can be very tight if machining speeds are reduced.

Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.

The total cost of machined prototypes is low.

2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.

3.Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

Application:

aerospace, medical, Automotive, and consumer products.

Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.
