

ADC12 Aluminum Die Casting Hinge Parts 200g with Black Electrophoresis

Our Product Introduction

for more products please visit us on caindustrialparts.com

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 500pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: ADC 12 Aluminium
- Surface Treatment: Black Electrophoresis
- Tolerance: +/-0.09MM
- Weight: 200g/pc
- OEM: Available
- Color: Black
- Highlight: **ADC12 aluminum die casting hinge,
black electrophoresis die casting parts,
200g aluminum hinge parts**

Product Description

ADC12 Aluminium Die Casting Hingle Parts With Black Electrophoresis

Factory Custom Sweeping Robot Parts Aluminum Die Casting Parts

Name	ADC12 Aluminium Casting Hingle Parts With Black Electrophoresis
Die Casting Mould	Profound Experience
Material	ADC12 Aluminium
Surface Treatment	Black Electrophoresis
Tolerance	+/-0.09MM
Weight	150g/pc
Certificate	ISO9001:2015
OEM	Available

Description

Die casting is a metal-forming process where molten metal is poured into a mold to create components with high precision, intricate details, and perfect functional fits. These components are mass-produced in various metal alloys including aluminum and zinc. After die-casting, parts can be further refined with CNC machining. This product features black electrophoresis surface treatment.

Advantages

- Produces complex parts to net shape, reducing secondary machining
- High-speed production compared to other manufacturing processes
- Durable parts with long service life

Applications

Aluminum casting parts are widely used for automotive components, engine parts, marine equipment, electronic and electrical components, agricultural machinery, infrastructure, architectural elements, food and beverage equipment, medical devices, and many other industrial applications.

Company Profile

C&A Industrial Component Ltd. is a China-based manufacturer specializing in custom metal components, hardware, fittings, valves, and PVC products. We collaborate with over 20 manufacturing facilities across China, offering processes including pressure die casting, machining, and stamping. Most facilities are ISO9001 and TS16949 certified, located in Zhejiang and Jiangsu areas, with a USA sales office serving North American customers.
