

Custom Made Thermoplastic Plastic Disc with +/-0.1mm Tolerance and ISO9001:2015 Certification

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Non
- Certification: ISO9001:2015
- Model Number: Non
- Minimum Order Quantity: 2000pcs
- Price: negotiable
- Packaging Details: Carton
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

Product Specification

- Material: Thermoplastic
- Surface: Non
- Tolerance: +/-0.1mm
- Weight: 10g/pc
- Process: Machining
- Color: White
- Certification: ISO9001:2015
- OEM: Available
- Highlight: **Thermoplastic Plastic Disc,
ISO9001:2015 Certified Plastic Disc,
+/-0.1mm Tolerance Machined Disc**

Product Description

Custom Made Plastic Disc Parts

Product Specifications

Name	Custom Made Plastic Disc Parts
Material	Thermoplastic
Surface Treatment	None
Tolerance	±0.1mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	White

Product Description

These precision plastic disc parts are designed for assembling with steel block components, consisting of multiple small parts. Machined parts offer excellent strength as they are manufactured from solid blocks of material and can be produced in a wide variety of shapes. Production is efficient with no tooling requirements, and tight tolerances can be achieved by adjusting machining speeds.

Key Advantages

Prototype development is streamlined with minimal investment - no tools or molds required, making machined prototypes cost-effective

Exceptional design flexibility allows for virtually any shape, including complex curved surfaces, while maintaining manufacturability

Highly cost-effective for limited production runs, adding significant value to finished goods despite being more labor-intensive than some processes

Applications

Aerospace, Medical, and Consumer Products

Company Profile

C&A Industrial Component Ltd. is a China-based manufacturer specializing in custom metal components, hardware, fittings, valves, PVC products, and more. We collaborate with over 20 manufacturing facilities throughout China, utilizing processes including pressure die casting, machining, and stamping. Most facilities are certified with ISO9001, TS16949, and other quality standards. Our manufacturing operations are located in Zhejiang and Jiangsu areas, supported by a USA sales office serving North American customers.
