

## Custom Made Aluminium A380 Die Casting Chassis Parts with Powder Coating and CNC Machining

### Our Product Introduction

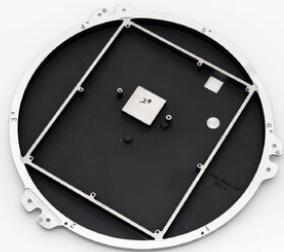

#### **Basic Information**

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: Negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T,Paypal
- Supply Ability: 100000pcs

#### **Product Specification**

- Material: Aluminium ADC12
- Surface Treatment: Powder Coating
- Tolerance: +/-0.5MM
- Weight: 900g/pc
- OEM: Available
- Color: Natural
- Machining: CNC Machining
- Assembly: Rivet
- Highlight: **Aluminium ADC12 Die Casting Chassis Parts, Powder Coating Die Casting Chassis Parts, CNC Machining Die Casting Chassis Parts**

## Product Description

### Custom Made Aluminium Die Casting Chassis Parts

#### Product Specifications

Specification	Details
Product Name	Custom Made Die Casting Chassis Parts
Die Casting Mould	Profound Experience
Material	Aluminium A380
Surface Treatment	Powder Coating
Tolerance	±0.5mm
Weight	900g per piece
Certificate	ISO9001:2015
OEM	Available

#### Process Description

Die casting is a precision metal casting process that involves forcing molten metal under high pressure into a mold cavity. The mold cavity is created using two hardened tool steel dies machined into specific shapes, operating similarly to injection molding systems. Most die cast components are manufactured from non-ferrous metals including zinc, aluminum, and related alloys.

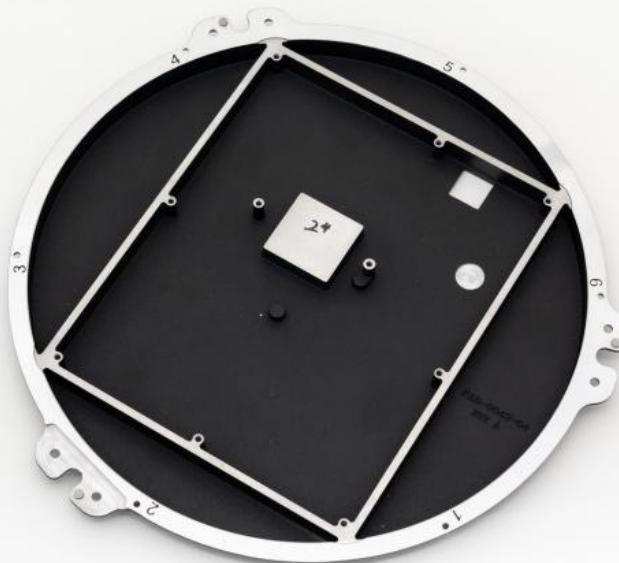

#### Key Advantages

- Aluminum's lightweight properties enable strong, durable parts without excessive weight
- Thinner wall sections can be cast compared to sand and permanent mold casting (approximately 0.75 mm)
- Customizable surface textures from smooth to well-textured finishes
- High-volume production capabilities with rapid cycle times
- Exceptional tensile strength up to 415 megapascals (60 ksi)

#### Industry Applications

Automotive, Aerospace, Energy, Electronics, Construction, Engineering, and Medical sectors.

## Manufacturing Capabilities

C&A Industrial Component Ltd. is a China-based manufacturer specializing in custom metal components, hardware, fittings, valves, and PVC

products. We collaborate with over 20 manufacturing facilities throughout China, utilizing advanced processes including pressure die casting, machining, and stamping. Our partner facilities maintain ISO9001 and TS16949 certifications, with manufacturing operations concentrated in Zhejiang and Jiangsu regions, supported by a dedicated USA sales office for North American customers.
