

Custom Stainless Steel Black Electrophoresis Laser Etched Casting Parts and Metal Sliders

Our Product Introduction

for more products please visit us on caindustrialparts.com

Basic Information

- Place of Origin: China
- Certification: ISO9001:2015
- Minimum Order Quantity: 1000pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 35-45 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100000pcs

Product Specification

- Material: Stainless Steel
- Surface Treatment: Black Electrophoresis
- Surface Finish: Laser Etched
- Tolerance: +/-0.5mm
- Manufacturing Process: Investment Casting
- Weight: 0.25g
- Certification: ISO9001:2015
- OEM: Available
- Highlight: **Stainless Steel Casting Parts,
Black Electrophoresis Metal Sliders,
Laser Etched Custom Metal Components**

Product Description

Custom Stainless Steel Black Electrophoresis Small Parts

Premium custom sliders manufactured through precision investment casting with black electrophoresis surface treatment and laser etching capabilities.

Product Specifications

Product Name	Custom Made Stainless Steel Black Electrophoresis Small Parts With Laser Etched
Material	Stainless Steel 304
Surface Treatment	Black Electrophoresis and Laser Etched
Tolerance	±0.5mm
Weight	0.25g
Process	Investment Casting
Certificate	ISO9001:2015
OEM	Available

Investment Casting Process

While investment casting is a relatively expensive process due to its complexity and labor requirements, the benefits often outweigh the cost. This versatile process can accommodate practically any metal and is typically used for small parts, though it can effectively produce components weighing up to 75 pounds or more.

Key Advantages

- High dimensional accuracy and precision
- Capability to produce extremely intricate parts
- Compatibility with almost any metal material
- No flash or parting lines in finished products
- Effective utilization of metal materials
- Fewer environmental hazards from the foundry process

Industry Applications

Aerospace, medical devices, jewelry, airline components, automotive parts, and golf clubs. The integration of 3D printing technology has further expanded our manufacturing capabilities.

Manufacturing Excellence

C&A Industrial Component Ltd. is a China-based manufacturer specializing in custom metal components, hardware, fittings, valves, and PVC products. We collaborate with over 20 manufacturing facilities throughout China, utilizing processes including pressure die casting, machining, and stamping. Most facilities maintain ISO9001 and TS16949 certifications, with manufacturing operations concentrated in Zhejiang and Jiangsu areas, supported by a USA sales office for North American customers.
