

## Custom CNC Machining Parts with ISO9001:2015 Certification in Carbon Steel and +/-0.09mm Tolerance

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Non
- Certification: ISO9001:2015
- Model Number: Non
- Minimum Order Quantity: 500pcs
- Price: negotiable
- Packaging Details: Carton and wooden case
- Delivery Time: 30-35 Days
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs

### Product Specification

- Material: Carbon Steel
- Surface: Black Oxide
- Tolerance: +/-0.09mm
- Weight: 90g/pc
- Process: Machining
- Color: Black
- Certification: ISO9001:2015
- OEM: Available

## Product Description

### Custom CNC Machining Service Assembling Parts

Name	Custom CNC Machining Service Assembling Parts
Material	Carbon steel
Surface treatment	Black Oxide
Tolerance	+/-0.09mm
Process	Machining
Certificate	ISO9001:2015
OEM	Available
Color	Black

#### Description:

This parts are assembling steel block parts, which is made up of small parts.

Machined parts have excellent strength, as they are built from solid blocks of material, and they can be made into a wide range of shapes.

parts can be made quickly. since they do not require tooling, and tolerance can be very tight if machining speeds are reduced.

#### Advantage:

1. In order to evaluate a new design, it is relatively easy to make prototype parts. there is no investment in tools and molds needed.

The total cost of machined prototypes is low.

2. Tacking in account some basic design for fabricating parts, the freedom of designing machined parts is huge. More specific, it allows all kinds of shapes, even curved surface.

3. Machining represents a highly cost-effective process for finishing some limited production runs. while generally more labor intensive than some other processes, it usually contributes value to the finished goods

#### Application:

aerospace, medical, Automotive, and consumer products.

#### Company profile:

C&A Industrial Component Ltd. Is a China based manufacturer of custom made metal components, hardware, fittings, valves, PVC products, etc.

We have over 20 manufacturing facilities that we collaborate with in China. Manufacturing process: pressure die casting, machining, stamping and etc.

Most of the facilities are Certified with ISO9001, TS16949, and etc.

Our manufacturing facilities are located in Zhejiang area and Jiangsu area with a USA sales office for our North American Customers.

□ We need your drawing to make samples.
